

Week 2 : Activity

You are required to produce a product backlog and then the sprint backlog related to the project that you have selected. You may assume that you have two sprints of 3 week duration to complete the project

- Each student is required to write two user stories of the main function that is assigned to him/her
- Prepare a presentation including the user stories written by each member according to the given format

First Slide (common to the group)

<div>Name of the project</div> <div>Group Number</div>
--

Second Slide

<div>Function – Registration Number of first student</div> <div>User Story 1 : _____</div> <div>User Story 2 : _____</div>

Third Slide

<div>Function – Registration Number of second student</div>
<div>User Story 1 : _____</div>
<div>User Story 2 : _____</div>

- Present **one** of the slides during the class (the team can decide whose slide will be presented)
- Add extra few slides at the end of the presentation and add the two sprint backlogs. Indicate the approximate starting date of each sprint
- Students should upload the group presentation in pdf format to respective link in course web.
